

441—73.10(249A) Discharge planning. The managed care organization shall establish policies and procedures, subject to approval by the department, that protect an individual from involuntary discharge that may lead to placement in an inappropriate or more restrictive setting. The managed care organization shall facilitate a seamless transition whenever a member transitions between facilities or residences.
[ARC 2358C, IAB 1/6/16, effective 1/1/16]
